

The Dino Heroes  
to the  
Rescue

By: Ford Israel

  day, 2-Claw (the T-Rex) and Spiney (the Spinosaurus) were sitting in their lounge chairs at their house. The phone rang!

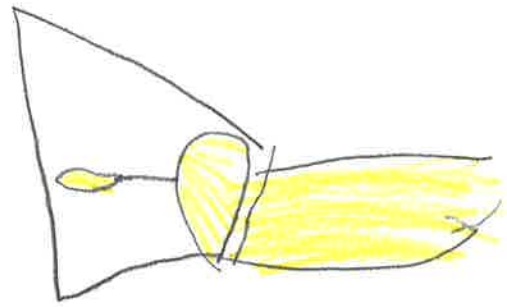

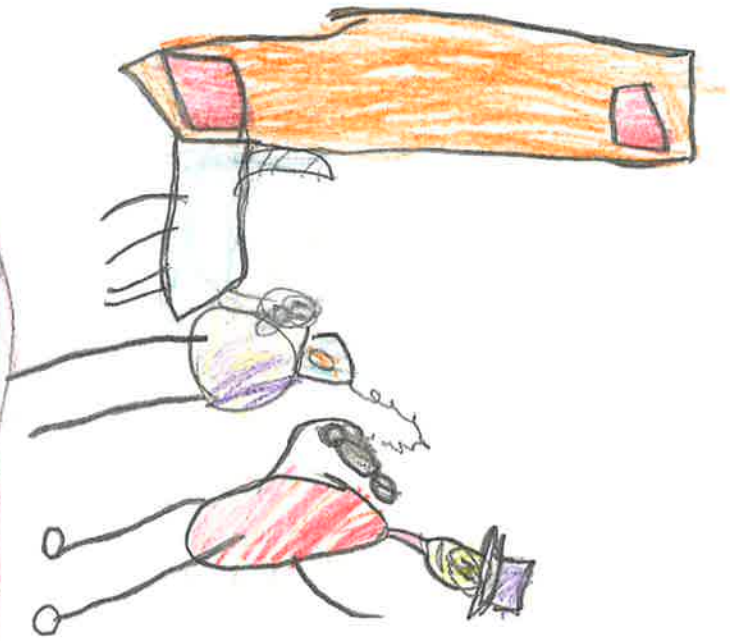

\*Riiing Riiing\*

It was Farmer John!

Farmer John said, "The birds are taking the oranges off my orange trees! Please help!"

The  Dino Superheroes said, "YES!!!"

2-Claw and Spiney went to their Super-dino closets, got gadgets and a map of the country (in case they got lost.)

Next, they went to their plan-building closet, got materials, thought of a **p** **I** **A** **N** and **D** **r** **e** **w** it. (They have **21** closets!)

When 2-Claw and Spiney finished, they hopped on their Dino-cycles and headed to Farmer John's farm.

PLAN

# The PLAN:

# Summer The Plains

2-Claw and Spiney unloaded the materials for the **P L A N** and set everything up under the perfect orange tree.

Handwritten text in a box:  $\sqrt{1000}$  1000

10 birds landed on the button while eating. The net box dropped, catching all 10 birds at once!

Spiney and 2-Claw put the shaking bird net box on their Dino-cycles, drove to the closest forest and let them go.

Farmer John felt happy the birds were gone. He picked **7** oranges and made orange juice. Farmer John gave Spiney and 2 Claw **2** BIG glasses of orange juice as a thank you.

The End.
