### Big Idea/ Topic

**Enduring Understanding:**
Developing techniques for ideation, composition, and creation of 2-dimensional artwork enables personal and cultural expression.

**Essential Questions:**
How does knowing the contexts, histories, and traditions of art forms help us create works of art and design?
How can I create an abstract figure sculpture in an expressive pose?

### Standard Alignment

**CREATING**
- VA7.CR.1 Visualize and generate ideas for creating works of art.
- VA7.CR.2 Choose from a range of materials and/or methods of traditional and contemporary artistic practices to plan and create works of art.
- VA7.CR.3 Engage in an array of processes, media, techniques, and/or technology through experimentation, practice, and persistence.
- VA7.CR.4 Incorporate formal and informal components to create works of art.
- VA7.CR.5 Reflect on, revise, and refine works of art considering relevant traditional and contemporary practices as well as artistic ideation.
- VA7.CR.6 Keep an ongoing visual and verbal record to explore and develop works of art.

**PRESENTING**
- VA7.PR.1 Plan, prepare, and present completed works of art.

**RESPONDING**
- VA7.RE.1 Reflect on the context of personal works of art in relation to community, culture, and the world.
- VA7.RE.2 Critique personal works of art and the artwork of others, individually and collaboratively, using a variety of approaches.
- VA7.RE.3 Engage in the process of art criticism to make meaning and increase visual literacy.

**CONNECTING**
- VA7.CN.1 Develop personal artistic voice through connecting uses of art within a variety of cultural, historical, and contemporary contexts.
- VA7.CN.2 Develop life skills through the study and production of art.
- VA7.CN.3 Utilize a variety of resources to understand how artistic learning extends beyond the walls of the classroom.

### Instructional Design
*This lesson has a flexible timeline and will cross over several days.*

This lesson is intended to reach students in a virtual setting, whether plugged or unplugged. See bottom of lesson for list of unplugged supplies.

**FOUNDATIONAL INFORMATION:**

Safe and proper tool/material use, awareness of artist's intent, and sculpture vocabulary.

**CONCEPTS:**

- Interpretation of artist's intent: realistic, abstract, or non-objective.
- Gesture drawing to capture pose and proportion.
- Wire armature and paper clay building techniques.
- Use of color to support expression.

**VOCABULARY:**

Artist's intent (realistic/abstract/non-objective), gesture drawing, proportion, figure drawing/sculpture, armature, monochromatic

**LINKS**

- [VA7U3L2 Assessments](#)
- [VA7U3L2 Vocabulary](#)
- [VA7U3L2 Artist's Intent/Giacometti PowerPoint](#)

**TEACHER SUPPLIES:**

- PowerPoints and Video Presentations
• Instructor generated project sample.
• Actual or photographed student exemplars showing a range from emerging to mastery

STUDENT SUPPLIES:

• R/A/N cards
• Visual-verbal journal & pencil
• Timer
• Sculpture materials: Aluminum armature wire, 1/16", Pliers with wire cutter, Cardboard for base, Hot glue gun & sticks, Paper clay (commercial or homemade), Tempera paint and brush
• Alternate sculpture materials if wire/paper clay aren’t available, such as: aluminum foil, cardboard, pipe cleaners, found objects, etc.

UNPLUGGED STUDENT SUPPLIES:

• Unplugged Student Packet (beginning on p.5)
• All items listed under “Student Supplies”

OPENING

HOOK/INTRODUCTION ACTIVITY:

In a live session, have students take 3 index cards (or small pieces of paper) and write the letters R, A, and N on them. Share the Interpreting Artist’s Intent PowerPoint and have students flash the appropriate card on-screen to indicate what they believe the artist’s intent was for each work.

UNPLUGGED: Give students the Glossary of Terms (p.6), Artist’s Intent guided notetaking sheet (p.7) and a print-out of the PowerPoint (p.8-10).

WORK SESSION

STUDENT AND TEACHER PROCEDURES:

Introducing Artist’s Intent & Gesture Drawing

• In a live or recorded session, share the Artist's Intent PowerPoint. Continue into discussion of Giacometti’s abstracted bronze figure sculptures. Demonstrate how to create a timed gesture drawing from a live model, paying close attention to pose and proportion and little attention to detail.
• Following the session, have students create several 90-second gesture drawings in their visual-verbal journals, using their household members as models.
• Students will then begin making planning sketches for their figure sculptures, focusing on expressive pose and accurate proportions.
• Unplugged: Provide students with instructions for creating gesture drawings and planning sketches (p.11).

Creating a Wire Armature
In a live or recorded session, demonstrate how to cut an appropriate length of wire (student wingspan is a good measure) and create a wire armature for figure sculpture and pose in an expressive manner. Create a base by gluing together two pieces of corrugated cardboard to double the thickness. Attach armature to base with hot glue, and begin building onto armature with paper clay, starting at the bottom. Students may need to allow the legs to dry before moving on to the upper body.

- Alternate materials, if wire and paper clay aren’t available, might include aluminum foil, cardboard, pipe cleaners, found objects, modeling clay, etc. Encourage students to be resourceful and creative!
- **Unplugged:** Provide students with printed instructions to create armatures (p. 12).

**Emotive Color Choice & Painting**

- In a live or recorded session, discuss emotive color choice. Define good painting practices & craftsmanship. Students will be painting their sculptures in a monochromatic color scheme of their choice.
- **Unplugged:** Provide students with instructions for choosing a color scheme and painting (p.13).

**CLOSING**

- Have students write a reflection in their visual-verbal journals: What new concepts or techniques did I learn through creating this project? What came easily to me, and what was a challenge? What would I do differently next time? They may choose to type this reflection to submit or photograph the journal page.
- Using Flipgrid, create a video for students to respond to. Have them share their completed artworks and read their reflections and respond to each other with peer feedback.
- Have students photograph their artwork, following the guidelines in the “How to Photograph Artwork” PowerPoint.
- Assess student work using the standards-based rubric (p.15).
Unplugged Student Packet

Visual Art Grade 7, Unit 3, Lesson 2:
Expressive Figure Sculpture
GLOSSARY OF TERMS

In your journal, write each term and create an illustration/visual definition to go with it.

Elements of Art: The building blocks artists and designers use to create works of art and design.

Form: Forms are three-dimensional shapes. Forms can also be classified as geometric or organic.

Color: Color is the way an object reflects light, and is one of the most powerful tools for expression. Color is organized and explained by the color wheel, and has three main characteristics: hue, value, and intensity.

Texture: Texture refers to how something feels. Texture can be ACTUAL (physical) or IMPLIED (visual).

Principles of Design: The ways artists and designers arrange the Elements of Art to create compositions.

Movement: Movement usually refers to visual motion--the path the viewer's eye takes through an artwork--which can follow lines, colors, shapes, etc.

Unity: Unity is achieved when similar elements are arranged so that various parts of the composition look like they belong together.

Visual-Verbal Journal: A sketchbook in which artists develop ideas, record information, and experiment with materials.

Artist's Intent: The aim of an artwork: realistic, abstract, or non-objective.

Realistic Art: Artwork that is intended to imitate life.

Abstract Art: Artwork that has subject matter, but is not intended to accurately represent life; artist has made expressive use of the Elements of Art.

Non-Objective Art: Artwork in which the only subject matter is the Elements of Art and Principles of Design.

Gesture Drawing: A quick sketch, drawn from life, intended only to capture pose and proportion, not detail.

Proportion: The relative size of objects or areas in a composition.

Figure Artwork: Artwork in any medium depicting the human form.

Armature: An underlying structure for a sculpture.

Monochromatic: One color (varying values may be used, but only one hue).
REALISTIC, ABSTRACT, or NON-OBJECTIVE:
Interpreting Artist’s Intent

- Realistic artwork is intended to ____________________________________.
- Abstract artwork is intended to ____________________________________

- Non-Objective artwork is intended to ____________________________________.

Label each artwork with R, A., or N.

Realistic, Abstract, or Non-Objective?

Realistic artwork is intended to imitate life.

High Museum of Art, Atlanta
Attrib: to François Gerard, French, 1770-1837
Beverly, after 1799
Oil on panel
Purchase, 1985.53

ABSTRACT

Abstract art isn’t intended to imitate life; artists make expressive use of elements and principles. Abstract art does have subject matter.

High Museum of Art, Atlanta
Milton Avery, American, 1883-1965
Sally with Mill (1948)
Oil on canvas

NON-OBJECTIVE

Non-objective art is intended only to show how the elements of art—color, line, shape, form, texture, space, and value—work together. There is no subject matter, aside from the elements & principles.

High Museum of Art, Atlanta
Lawson Chesson, American, Born 1929

Cast in bronze

Rough, unfinished-looking texture

Large scale

Walking Man, 1960
Alberto Giacometti

What emotions or ideas do you think Giacometti’s sculptures express?

How does he use the elements and principles to aid expression?

Three Men Walking, 1948-49
Alberto Giacometti
GESTURE DRAWING

A gesture drawing is a quick sketch made with loose, expressive lines. The intention of a gesture drawing is to capture the subject’s pose and proportions, not details.

For this exercise, you’ll need a model (a member of your household willing to pose), your Visual-Verbal Journal, a pencil, and a timer.

Create at least four 90-second gesture drawings. After each one, look closely at the proportions of your drawing, checking them against your model. Aim to improve with each drawing!

After you’ve completed your gesture drawings, flip to a fresh page and begin making sketches to plan for an expressive figure sculpture of your own, focusing on capturing pose and proportions as accurately as you can.
CREATING A WIRE FIGURE ARMATURE

An armature is an underlying structure for a sculpture, typically not visible in the completed artwork because it’s completely covered by sculpture material (in this case, your paper clay). Begin by cutting a length of wire about 5 feet long. Using the diagrams below, bend and twist your wire to create a well-proportioned figure, and pose in an expressive manner.

![Wire Armature Diagrams]

Create a base by gluing together two pieces of corrugated cardboard to double the thickness. Attach armature to base with hot glue.
CREATING YOUR FIGURE SCULPTURE

Using paper clay, begin to add mass to your armature. Start at the feet and add a small amount of clay at a time, pressing it onto the wire and smoothing the surface. You may need to allow the legs to dry before applying clay to the upper body.

**Materials Note:** If wire and paper clay aren’t available, consider what other materials you could use, such as pipe cleaners, aluminum foil, masking tape…be resourceful and creative!

After your clay is completely dry, it’s time to paint! Consider the emotive power of color as you decide what color you’ll use. Would a calm, cool color better support the expressiveness of your pose, or a vibrant, strong, bright color?

Evidence of Student Success

Diagnostic
- Criticism of project exemplars (images or student generated samples) that range from emerging to advanced/mastery, students formulate criteria for success based on construction, visual interest, craftsmanship and functionality.
- Students generate series of sketches for project ideation that demonstrate understanding of project objectives and possibilities/limitations of media.

Formative
- One-on-one or group discussions determining content knowledge and understanding of vocabulary terms.
- Quizzes or other data-collecting strategies for immediate feedback (Google Forms, Discussion Questions, Review Prompts, etc.).

Summative
- Standards-based project rubric.
- Vocabulary quizzes.
- Presentation of work with artist statement.

Student Learning Supports

INCREASED RIGOR:
Advanced students will be guided to create more elaborate and conceptually complex works of art. Students working at an accelerated pace will complete enrichment activities related to concepts or skills covered.

ADAPTED ASSIGNMENT:
Teacher will remediate and adjust learning goals according to student needs. Strategies may involve scaffolding by limiting choices, peer mentoring, or one-to-one re-delivery of instruction.

Engaging Families

UNPLUGGED VARIATION SUPPORT MATERIALS:
- Unplugged Student Packet
  - Glossary of Terms
  - Interpreting Artist’s Intent Worksheet
  - Artist’s Intent PowerPoint (print version)
  - Gesture Drawing Instructions
  - Wire Armature Instructions
  - Sculpture Instructions
  - Expressive Figure Sculpture Rubric
  - Artist’s Intent/Figure Sculpture Quiz

**All activities and resources should be previewed prior to student use. Adjustments should be implemented to provide for individual abilities, needs and safety.**
