

SALSA

Episode 113: “The Three Clever Goats” - Activity 13

Have your child pretend that he/she is “el monstruo” from this SALSA program. Have your child think of ways that “el monstruo” moves. Have your child demonstrate how he/she thinks “el monstruo” would walk, run, jump, hop, skip, and crawl. Ask your child to think of and demonstrate other ways “el monstruo” would move. Next, discuss the fact that the monster from the story is fictional. Ask your child to think of three real animals. Discuss each animal and have your child demonstrate how each animal moves. Discuss why animals move in different ways. Extend the activity by observing animals in their habitats (rabbits, deer, cats, dogs, gerbil, guinea pigs, armadillos, opossums, cows, etc.) Discuss the observed animals’ movements.
