

Paving the Way

The PTA at Avery needs your help! They are considering paving a walkway around the back field. The PTA has a limited budget and wants to complete the project for less than \$3,000. The walkway would need to be at least 3 feet wide, with a total length of 400 feet.

An anonymous parent has agreed to cover the cost of all labor and other materials needed to complete the project. The PTA will only be responsible for purchasing the pavers for the walkway.

Please refer to the QR code sheet to locate the paver options that the PTA has selected. Help the PTA by designing an attractive walkway that can be completed within the designated budget.

Write a letter to the PTA including the following....

- ❖ **Description of your design**
- ❖ **Cost of the design (show all calculations)**
- ❖ **Explanation of materials needed**
- ❖ **Why the paver you selected is the best option**
