

The magical crew

and

the star crystal

written by Bree McGoldrick

ONCE in a world far from here, there was a unicorn named Fire heart. Her best friend was Sparkles. They have a fairy friend named Zoe. Fire heart, Sparkles, and Zoe loved to go on adventures at magical creatures valley.

Star crystal

The valley is where all the magical creatures go to play. It is filled with crystals that are magic. One day a storm came through the valley it broke the star crystal. The star crystal held star dust.

Without it there are no stars.

When they saw it they knew they needed to do something. They will have to go to the crystal queen her power could restore the star through wind, dust, Rain, and a forest.

The wind was hard going, the forest was dangerous. When they got there they saw the queen. She said I have been waiting for you. The queen's magic fixed the star crystal and the star dust has been saved. They go to Fire hearts house they have a pillow fight and they eat yummy food like cupcake and ice cream. These best friends are ready for another adventure.
