DESIGNING A SUPERHERO

Use design to create a character who is determined to solve real-world issues! Use your creativity to design a superhero who will tackle a problem that matters a lot to you.

MATERIALS:

- Paper
- Colored pencils, crayons, or markers
- Or virtual sketching software

PROCEDURE:

**Step 1:** Determine a real-world issue that is important to you.

**Step 2:** Write down why this issue is a problem.

Step 3: Brainstorm and write down some ways your character could help solve the problem.

Step 4: Make a list of superpowers that will help your character solve the problem.

Step 5: Using paper and coloring utensils or virtual sketching software, sketch your character. Be sure to include details that demonstrate your superhero's powers and bring them to life.

Step 6: Give your superhero a name and/or catchphrase that is reflective of their mission to solve the problem.
