

Directions: Use these questions to facilitate reflection and dialogue during professional learning time around <u>Episode 303</u> from the <u>Classroom Conversations Podcast series</u>.*

Teaching 21st Century Skills: Let the Kids Be the Experts

Questions for Reflection and Discussion:

- 1. How do you currently use technology your classroom?
- 2. What skills do students need to be successful (e.g., critical thinking, collaboration)? What are some ways we can teach these skills using technology?
- 3. How do you find new ways to incorporate technology in your classroom? Is there an individual in the building that can give you fresh ideas?
- 4. In what ways do you use social media to enhance your professional learning?
- 5. What is digital citizenship?
- 6. What are some creative ways you can teach digital citizenship in your classroom?
- 7. How can teachers increase engagement by providing students more *voice* and *choice* while using technology?

* This discussion guide aligns with the <u>Teacher Keys Effectiveness System- Performance</u> <u>Standard 7: Positive Learning Environment.</u> Its design aims to elevate teacher voice and agency in professional learning.
